Independent Auditors' Report

To the Board of Education of the
Sioux Central Community School District

We have audited the accompanying financial statements of the governmental activities, business-type activity, each major fund and the aggregate remaining fund information of Sioux Central Community School District, Sioux Rapids, Iowa, as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activity, each major fund, and the aggregate remaining fund information of Sioux Central Community School District as of June 30, 2007, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2008, on our consideration of Sioux Central Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis and budgetary comparison information on pages 4 through 12 and pages 36 through 37 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Sioux Central Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the two years ended June 30, 2006 (which are not presented herein) and expressed unqualified opinions on those financial statements. We did not audit, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the year ended June 30, 2004. Other supplementary information included in Schedules 1 through 4, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SIOUX CENTRAL COMMUNITY SCHOOL DISTRICT MANAGEMENT DISCUSSION AND ANALYSIS

Sioux Central Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2007. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2007 FINANCIAL HIGHLIGHTS

General fund revenues decreased from \$5,147,547 in fiscal 2006 to \$4,922,269 in fiscal 2007, while General fund expenditures decreased from \$5,047,801 in fiscal 2006 to \$4,876,728 in fiscal 2007.

The decrease in General fund revenues was attributable mainly due to a decrease in grant revenue. Tuition and federal sources (mainly grants) decreased in revenues, while the local tax revenue, miscellaneous, and state sources increased slightly. The decrease in expenditures was due primarily to minimal changes in all areas by new administration. The General fund balance increase is the result of controlling expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.
- The statements for governmental funds explain how basic services, such as regular and special education, were financed in the short term, as well as what remains for future spending.
- The statement for proprietary funds offer short-term and long-term financial information about the activities the District operates like businesses, such as food services.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Other supplementary information provides detailed information about the non-major Special Revenue Funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

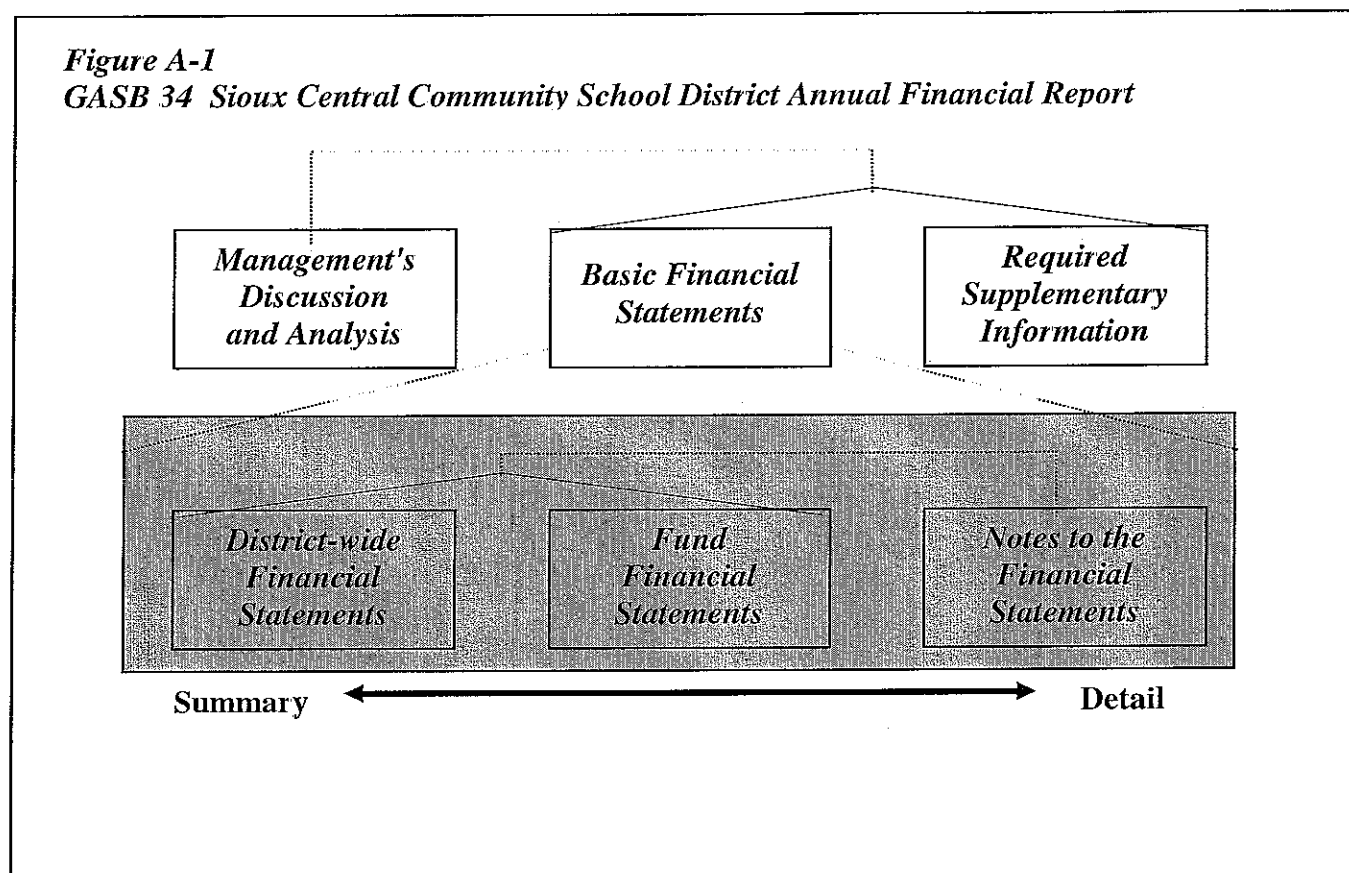

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statement

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has two kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Project Fund.
- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund.
- 3) *Fiduciary funds:* Fiduciary funds are custodial in nature and are used to account for funds held by the District on behalf of someone else. The District's fiduciary funds include a private purpose scholarship trust fund.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net assets.

Property tax and unrestricted state grants account for 58% of the total revenue. The District's expenses primarily relate to instruction and support services which account for 86% of the total expenses.

Governmental Activities

Revenues for governmental activities for the year ended June 30, 2007 were \$6,195,876 and expenses were \$5,658,363.

Figure A-5 presents the total and net cost of the District's major governmental activities: instruction, support services, non-instructional programs, and other expenses.

- The cost financed by users of the District's programs was \$1,313,017 in 2006 and \$1,389,694 in 2007.
- Federal and state governments subsidized certain programs and grants and contributions totaling \$952,845 in 2006 and \$713,982 in 2007.
- The net cost of governmental activities was financed with \$2,226,480 and \$2,379,399 in property tax, \$1,404,842 and \$1,383,303 in state foundation aid, \$215,403 and \$281,153 in local option sales and services tax, and \$18,741 and \$37,793 in interest income, for 2006 and 2007 respectively.

Business-Type Activities

Revenues of the District's business-type activities (school food and nutrition services) totaled \$269,539 and expenses totaled \$276,432. (Refer to Figure A-4.) Revenues of these activities were comprised of charges for services, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, Sioux Central Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$1,174,253, a seven percent increase over last year's ending fund balances of \$1,092,764.

Governmental Fund Highlights

The District attempted to maintain its General Fund balance by cutting expenses from portions of the budget that were not already obligated, such as supplies and maintenance items.

Proprietary Fund Highlights

The School Nutrition Fund balance decreased due primarily to an increase in the cost of food.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following a required public notice and hearing for all funds. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis of accounting. A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of the is report.

CAPITAL AND DEBT ADMINISTRATION

At June 30, 2007, the District had invested \$5.4 million, net of accumulated depreciation, in a broad range of assets, including land, buildings, athletic facilities, computers, audio-visual equipment, and transportation equipment. This represents a net decrease of 2% from last year. More detailed information about the District's capital assets is presented in Note 3 to the financial statements. Total depreciation expense for the year was \$305,358.

The original cost of the District's capital assets was \$10,518,871. Governmental funds account for \$10,440,968, with the remainder of \$77,903 accounted for in the Proprietary, School Nutrition Fund.

Long-Term Debt

At year-end, the District had \$2,847,040 of general obligation bonds and other long-term debt outstanding. This represents a decrease of approximately 13% from last year. See Figure A-7 below. Additional information about the District's long-term debt is presented in Note 5 to the financial statements.

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could affect its financial health in the future:

- The District has completed three years of a sharing agreement with Albert City – Truesdale Community School District for academics. The District is also continuing a sharing agreement with South Clay that has been going for almost 10 years. Both agreements are going well. The administration is keeping communication lines open with other neighboring districts for the possibility of future sharing.
- The District has experienced declining enrollment the past several years.
- Iowa law requires that unsettled salary negotiations for teachers go to mandatory arbitration. Invariably arbitrated settlements are higher than current levels of allowable growth in funding (not including the budget cuts after the contracts have been settled and people have been hired). A solution needs to be found.
- Health insurance continues to be a very costly item to the District. The rates have not increased as drastically over the past few years, however they are still extremely high. Even though concessions have been made by employees in regard to deductibles, and coinsurance, other solutions need to be found. The skyrocketing cost of health care and the insurance to cover the cost will soon be unattainable by many.
- Unfunded mandates are stretching the limits of not only the financial health of the District, but also the human resources aspect of the District. "No Child Left Behind", "Student Achievement and Teacher Quality Act", and "GASB 34", to name a few.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability of the money it receives. SIoux CENTRAL COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Sioux Central Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. The geographic area served includes the Cities of Sioux Rapids, Rembrandt, Lynn Grove and Peterson, Iowa, and agricultural area in Buena Vista, Clay, Cherokee and O'Brien Counties. The District has also entered into a sharing agreement with the Albert City-Truesdale Community School District for academics beginning in 2005. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A Reporting Entity

For financial reporting purposes, Sioux Central Community School District has included all funds, organizations, account groups, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The Sioux Central Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations – The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Buena Vista and Clay Counties Assessor's Conference Boards.

B. Basis of Presentation

Government-wide Financial Statements – The Statements of Net Assets and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for service.

**SIOUX CENTRAL COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Statement of Net Assets presents the District's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

- *Invested in Capital Assets*, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction or improvement of those assets.
- *Restricted Net Assets* result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Assets* consist of net assets that do not meet the definition of the two preceding categories. Unrestricted Net Assets often have constraints on resources that are imposed which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental and proprietary funds:

- The **General Fund** is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund accounts for the instructional and most of the support service programs of the District's operations. Revenue of the General Fund consists primarily of local property taxes and state government aid.
- The **Debt Service Fund** is used to account for the accumulation of resources for and the payment of general long-term debt principal and interest.
- The **Capital Projects Fund** is used to account for all resources used in the acquisition and construction of capital facilities.

SIOUX CENTRAL COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- The District's proprietary fund is the **Enterprise, School Nutrition Fund**. This fund is used to account for the food service operations of the District.

C Measurement Focus and Basis of Accounting

The government-wide financial statements and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financial sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

SIOUX CENTRAL COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the balance sheet:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking the budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½ % per month penalty for delinquent payments; is based on January 1, 2005 assessed property valuations; is for the tax accrual period July 1, 2006 through June 30, 2007, and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2006.

SIOUX CENTRAL COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and contributed value for government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Land	\$ 1,000
Buildings	\$ 10,000
Improvements other than Buildings	\$ 10,000
Furniture and Equipment:	
School Nutrition Fund Equipment	\$ 10,000
Other Furniture and Equipment	\$ 10,000

Capital assets are depreciated using the straight line method of depreciation over the following estimated useful lives:

Buildings	50 years
Improvements other than Buildings	20 – 50 years
Furniture and Equipment	5 – 15 years

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collectible within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivables and other receivables not collected within sixty days after year-end.

SIOUX CENTRAL COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred revenue on the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences – District employees accumulated a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts and related employee benefits would be reported in governmental funds only for employees that have resigned or retired. The compensated absences liability is deemed to be immaterial at June 30, 2007.

Long-Term Liabilities -- In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity – In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties or use for a specific purpose.

Restricted Net Assets – In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgeting and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2007, expenditures in the support services function area exceeded the amount budgeted.

Note 2 – CASH AND POOLED INVESTMENTS

The District's deposits in banks at June 30, 2007, were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

Note 7 – PENSION AND RETIREMENT BENEFITS

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P O Box 9117, Des Moines, Iowa 50306-9117.

Plan members are required to contribute 3.70% of their annual salary and the District is required to contribute 5.75% of annual payroll. Contribution requirements are established by State statute. The District's contribution to IPERS for the years ended June 30, 2007, 2006 and 2005, were \$167,351, \$164,541, and \$166,927 respectively, equal to the required contributions for each year.

Note 8 – AREA EDUCATION AGENCY

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$153,027 for the year ended June 30, 2007, and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

Note 9 – RISK MANAGEMENT

Sioux Central Community School District is a member in the Iowa School Employees Benefit Association, an Iowa Code Chapter 28E organization. The Iowa School Employees Benefits Association (ISEBA) is a local government risk-sharing pool whose members include various schools throughout the State of Iowa. ISEBA was formed in July 1999 for the purpose of managing and funding employee benefits. ISEBA provides coverage and protection in the following categories: medical, dental, vision and prescription drugs.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION –
BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2007**

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, there were no budget amendments.

During the year ended June 30, 2007, expenditures in the support services function exceeded the amount budgeted.

**Independent Auditors' Report on Internal Control over Financial Reporting
and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards**

To the Board of Education of the
Sioux Central Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Sioux Central Community School District, Iowa as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated January 10, 2008. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Sioux Central Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of Sioux Central Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Sioux Central Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies and material weaknesses.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Sioux Central Community School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood a misstatement of Sioux Central Community School District's financial statements that is more than inconsequential will not be prevented or detected by Sioux Central Community School District's internal control. We consider the deficiencies in internal control described in Part II of the accompanying Schedule of Findings and Questioned Costs as item 07-II-A and 07-II-B to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies that result in more than a remote likelihood a material misstatement of the financial statements will not be prevented or detected by Sioux Central Community School District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe the significant deficiencies described above are material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sioux Central Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part III of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2007, are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Sioux Central Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Sioux Central Community School District's responses, and accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Sioux Central Community School District and other parties to whom Sioux Central Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Sioux Central Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

**SIoux CENTRAL COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2007**

PART I – SUMMARY OF INDEPENDENT AUDITOR’S RESULTS

- (A) An unqualified opinion was issued on the financial statements.
- (B) Reportable conditions in internal control over financial reporting were disclosed by the audit of the financial statements, including material weaknesses.
- (C) The audit did not disclose any non-compliance, which is material to the financial statements.

PART II – FINDINGS RELATED TO THE FINANCIAL STATEMENTS

INSTANCES OF NON-COMPLIANCE: No matters were reported.

REPORTABLE CONDITIONS:

07-II-A Segregation of Duties

Observation – During our review of internal control structure, the existing procedures are evaluated in order to determine that incompatible duties, from a control standpoint, are not performed by the same employee. This segregation of duties helps to prevent losses from employee error or dishonesty and therefore maximizes the accuracy of the District’s financial statements.

Recommendation – We realize with a limited number of personnel, segregation of duties is difficult. However, the District should review the operating procedures of the office to obtain the maximum internal control possible under the circumstances.

Response – The District feels that additional personnel would not be cost effective. However, management and the school board will review procedures and investigate available alternatives.

Conclusion – Response accepted.

07-II-B Financial Reporting

Observation – During our audit, we identified material amounts of receivables, payables and capital asset additions not recorded in the District’s financial statements. Adjustments were subsequently made by the District to properly include these amounts in the financial statements.

Recommendation – The District should implement procedure to ensure all receivables, payables and capital asset additions are identified and included in the District’s financial statements.

Response – We will double check these in the future to avoid missing any receivables, payables or capital asset transactions.

YEAR ENDED JUNE 30, 2007**

PART II – FINDINGS RELATED TO THE FINANCIAL STATEMENTS (CONTINUED)

Conclusion – Response accepted.

PART III – OTHER FINDINGS RELATED TO REQUIRED STATUTORY REPORTING

07-III-A: Certified Budget – Disbursements for the year ended June 30, 2007, exceeded the amounts budgeted in the support services functional area.

Recommendation – The budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response – The District will amend future budgets before expenditures exceed the budget.

Conclusion – Response accepted.

07-III-B: Questionable Disbursements – No expenditures that did not meet the requirement of public purpose as defined in an Attorney General's opinion dated April 25, 1979, were noted.

07-III-C: Travel Expense – No expenditures of Sioux Central Community School District were for travel expenses of spouses of District officials or employees.

07-III-D: Business Transactions – No business transactions between the District and the District officials or employees were noted.

07-III-E: Board Minutes – No transactions were found that we believe should have been approved by the Board minutes but were not.

07-III-F: Certified Enrollment – No variances in the basic enrollment data certified to the Department of Education were noted.

07-III-G: Deposits and Investments -- No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the District's investment policy were noted.

07-III-H: Certified Annual Report -- The Certified Annual Report was filed timely with the Department of Education.

07-III-I: Deficit Balances – Several student activity accounts as well as the management levy special revenue fund had deficit balances at June 30, 2007.

**PART III – OTHER FINDINGS RELATED TO REQUIRED STATUTORY REPORTING
(CONTINUED)**

Recommendation – We recommend that the District should investigate alternatives to significantly reduce and/or eliminate this deficit.

Response – The District is aware of this situation and will investigate alternatives to significantly reduce and/or eliminate this deficit by June 30, 2008.

Conclusion – Response accepted.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
YEAR ENDED JUNE 30, 2007**

06-II-A Segregation of Duties

Observation – During our review of internal control structure, the existing procedures are evaluated in order to determine that incompatible duties, from a control standpoint, are not performed by the same employee. This segregation of duties helps to prevent losses from employee error or dishonesty and therefore maximizes the accuracy of the District's financial statements.

Recommendation – We realize with a limited number of personnel, segregation of duties is difficult. However, the District should review the operating procedures of the office to obtain the maximum internal control possible under the circumstances.

Current Status -- This finding still exists at June 30, 2007 (See Comment 07-11-A).

06-II-B Grant Administration

Observation -- The District does not have an adequate system in place to monitor the various grants received by the District. Budgets, draw downs and reporting requirements were done with little or no administrative oversight.

Recommendation -- The District should assign an individual to be responsible for grant administration including internal accounting and external reporting to ensure both timely and accurate reimbursement and compliance with applicable laws, regulations, contracts, and grant agreements.

Response -- The District has assigned an individual to oversee the grant process.

Conclusion -- We feel the response is acceptable therefore there is no comment for the current year.
